

## Rethinking ventilation in modern surgery

As surgical environments continue to evolve, ventilation can no longer be seen as a background system. It is a central component of both patient safety and operational performance.

Understanding how air actually behaves in real operating rooms, not just in theory, is key to designing safer environments.

Curious about how airflow design can make a difference? Read more in our [blog](#)

**Sustainability Isn't a Trend. It's Who We Are!**

By supporting infection prevention, optimizing energy use, and improving working conditions for surgical staff, Opragon delivers sustainable benefits to architects, hospital directors, and clinical teams alike. Sustainability was our beginning, and it continues to be our promise for the future. While energy-efficient ventilation reduces operational energy, the largest sustainability impact comes from preventing infections in the first place. **Read more about it in our [blog](#).**

## **Avidicare Welcomes CESI/LSM as New U.S. Distributor for Opragon**

At Avidicare, our mission is to transform operating-room safety through innovative, evidence-based ventilation technology. We are proud to announce an important step forward in that mission: **CESI (Coward Environmental Systems Inc.) and sister-company LSM (Life Science Modular) is now distributor of Opragon in an area around Pennsylvania (US), but at times also supporting projects in other US regions.** As before, the area around up-state NY is served by our distributor StarkTech. **Read the news [here](#).**
